SCHOOL DIRECTORS' AND SUPERVISING PRINCIPAL'S REPORT

To the Voters of the Town of Pittsford:

Our report for the year ending February 1, 1927, is hereby submitted for your consideration.

The past year has been a year of progress in the School System. The High School, Graded Schools, and Rural Schools have improved in many respects. This success is due, to a great extent, to the faithful work of the teachers, who are always ready to put forth every effort to aid the pupil. The spirit of co-operation which has existed between teachers and pupils is commendable. It is this spirit which makes for better education. Our record of attendance shows a decided improvement.

High School: In June the Class of 1926 was graduated, nineteen pupils receiving their diplomas. A large percentage of this class has gone on to higher education. During the summer, the Lothrop building has been thoroughly renovated, all walls, and ceilings, windows, and woodwork having been washed and cleansed. The walls of the basements were white-washed, and everything possible done to put the building in a clean and sanitary condition. This also put the building in good shape for inside refinishing. In September, school reopened with the same faculty. One hundred and sixty-eight pupils were enrolled, the largest number in the history of the school. Our aim in the High School has been the maintaining of a high standard of educational work. Through various methods we have tried to reach the needs of the individual pupil. It is probably enough to say that our High School has been placed on the approved list of The New England College Entrance Certificate Board for a period of five years, the first time that this has ever been granted to our High School. The faculty feel that the pupils in the entering class are already showing some of the benefits of a standardized course of instruction in the Graded and Rural Schools. At present, we are considering a change in the curriculum of next year to

include the teaching of two more courses in Science. This will be a great aid to those who go on to higher education.

Graded and Rural Schools: From a standpoint of class work in our Graded and Rural Schools, the problem has been the advancing of our course of standardized study. This year we have placed a uniform system of reading in all our schools. This is The New Beacon System of Reading, which is approved by the State Department of Education. Up to the time of the introduction of this system, there was no definite system of teaching reading in our Graded and Rural Schools. Some Rural Schools had portions of one system, and parts of another; while in the Graded Schools, various grades had parts of different systems. This was unfair for teachers and pupils, as it was impossible to give the proper instruction to all. At present, all our schools are fully equipped with the new system, and are all working by the same method, for the same object, namely, better reading. A year ago we standardized Mathematics and Writing. This next year it is hoped that we may standardize courses in History, Geography and Spelling. From the standpoint of buildings much has been done for the Rural and Graded Schools. The Hudson School has been greatly improved, and with a small additional expenditures can be made a Standard School.

We wish to express our appreciation of the spirit with which the people of the Hudson School District co-operated with us in these improvements. The labor connected with the moving of the building was almost entirely donated. Credit is given the following:

F. G. Parker, cash	\$10 00
John Giddings, cash	5 00
John Giddings, repairs and labor	5 00
J. P. Candon, labor	12 00
Ed. Wheeler, labor	8 00
Dana Bernor, labor	4 00
W. Trombley, labor	4 00
W. Vaughn, labor	4 00

L. E. Leonard, trucking	3 00
School Directors, services	10 00

Other members of the district have agreed to contribute, and we hope to grade and beautify the grounds as a neighborhood project during the summer vacation.

The work of standardization of the Goodnough School has progressed, and in a short time, at a very small expense, we hope to meet the requirements for a Standard School there. This will make four Standard Rural Schools in Pittsford, a fact of which the voters should feel proud. The East Pittsford School, although it is not a Standard School, is in good shape, and meets the needs in that section at the present time. If the Douglas School is to be maintained, some expenditure for repairs must be made this year. The Furnace and Dickerman Schools are being maintained as Standard Schools. At the Florence Graded School, weather stripping has been installed, which has aided in overcoming the difficulty of heating that building.

The remainder of this report deals with an explanation of some of the more important items in the summary of expenses for this year.

Teachers: The expense of teachers shows an increase of \$1,406.43. This additional amount covers the cost of one more full-time grade teacher, the normal increase in teachers' salaries, and supervision. Taking into consideration the fact that our supervision alone in 1924, and part of 1925, under the old system, cost at the rate of \$1,350.00 per year, our cost of teaching and supervision at the present time is not excessive.

Repairs: Repairs show an increase of \$440.98, which is due to the standardization work on the Hudson and Goodnough Schools, and the installing of weather stripping at the Florence School.

Water, fuel, and lights: This account shows an increase of \$795.27, which is due mostly to the fact that we have burned hard coal instead of soft coal in the Lothrop Building. We feel that this is justified, because if soft coal were used, the

building would require an expensive cleaning annually if it were to be maintained in a sanitary condition.

Janitor service: This item shows an increase of \$452.60. This item includes \$444.60, the cost of cleaning the Lothrop Building. Thus we have practically no increase in the actual normal janitor service.

Transportation: This item shows a decrease of \$926.00. This is due to the lowered cost of transportation at Florence.

Text books: This item shows an increase of \$204.24, which is due to the additional expense of adopting a uniform standard system of reading. Also, the increase in the number of Junior High School pupils necessitated the purchase of a large number of additional text books.

Insurance: This item shows an increase of \$354.60, due to the fact that three of the policies on the Lothrop Building had to be renewed this year.

Supplies. This item, which in this report includes furniture, shows a decrease of \$225.24. As the schools are better equipped and have the use of a greater variety of necessary supplies, this decrease may be attributed to the economic use and purchase of supplies.

Tuition paid to other towns: This item shows an increase of \$58.03. This is due to an increase in the number of grade pupils who are attending school in Proctor. These pupils live in the Goodnough School District, and if they attended school in Pittsford would have to attend the Goodnough School or be transported. The Goodnough School at the present time has an enrollment of forty-one pupils, which is an over-crowded school. We are meeting this situation at present by using a two session plan. If additional pupils are sent to this school, it would mean that an addition would have to be built and another teacher employed. This explains why these pupils are attending school in Proctor. We hope to solve this problem in the most economic manner.

Summary of plans for the coming year:

1. To make the Hudson and Goodnough Schools. Standard Schools. The expense of this work will not be

great. At present, we have received from the State Department a rebate of \$300.00 on the expense of repairs to these schools. When the work is completed, another rebate of approximately \$250.00 can be expected.

2. To have some inside refinishing done at the Lothrop Building. This building is in need of refinishing, and due to the recent cleaning, this is the time when it can be most economically done.

3. To install in all Graded and Rural Schools a standard course of instruction in History, Geography, and Spelling.

4. To do some necessary cleaning at the Florence Graded School.

5. To maintain all schools in good repair.

6. To maintain a high standard of education.

If the above plans are to be carried out during this next year, a tax of 185% will be necessary.

Respectfully submitted,

T. E. ADAMS,
J. B. CANDON,
CHAS. P. McDEVITT,
J. W. URQUHART.

REPORT OF LIBRARIAN

For the year ending December 1, 1926

The Maclure Library was open for the public circulation of books on 202 afternoons and 104 evenings during the past year. This was a total of 303 openings.

The total book circulation for the year was 14,079, of which 9,818 were books for adult readers and 4,261, or 30.2%, were books from the children's room. The current magazine circulation was 2,494, which made a total of 16,573 books and magazines circulated. A gain of 218 over the previous year. The average daily circulation was 81.6. The largest circulation was on June 16, when 302 books and magazines were loaned.

The number of volumes added to the library during the year was 300, of which 27 were bound magazines, 101 were replaced copies and 6 were gifts. Bills for the books purchased amounted to \$387.05 and the magazine subscriptions to \$90.80.

Received at loan desk \$56.18 for fines and subscriptions and \$66.06 for the rental of books at two cents a day. The treasurer of the Maclure Library Association received from the town's appropriation of 3% on the grand list, \$478.01.

Orders drawn on the treasurer of the Association for all approved bills of the year amounted to \$2,308.72.

The library recently received from Miss Helen Barnes 63 books and many foreign photographs collected by Miss Eaton, also 325 books and a bronze bust of Rubens from the library of Mr. and Mrs. John C. Avery.

MARY RANDALL ALLEN,
Librarian.

SUPERINTENDENT'S REPORT

Owing to sickness, Mr. Urquhart at the end of the Fall term asked for two months leave which leaves the Superintendent's report to be made by one not entirely familiar with the work.

The High School work is progressing exceptionally well even though the personnel of the faculty has been greatly changed. There were three new teachers who joined the staff in September and a substitute came for the Winter term.

The work in the rural schools is progressing very rapidly. With the aid of the State helping teacher and the course of study laid out by the state, the rural schools are offering a more uniform course than ever before. This should give to the pupils from these schools a preparation which should enable them to compete successfully with the pupils from the graded schools. One of the basic principles in accomplishing a uniform course is the adoption of the same text books for all of the schools. It is our policy in standardizing the text books, not to discard serviceable books now in use, but to standardize the necessary replacements.

Pittsford High school enjoys a very enviable reputation among the schools of the state for its organization and discipline. This reputation, the faculty feels, could never have been earned without the cooperation of the parents and pupils, and the faculty wishes to express its appreciation of the loyalty shown by the pupils, especially during the last few months.

Respectfully submitted,

JEROME TENNIEN,

for the Principal

REPORT OF TRUSTEES OF PUBLIC MONEY

The fund bequeathed the Town of Pittsford by Mrs. Emma Burditt Pinney is deposited with Rutland Savings Bank. We have paid the Town Treasurer \$455.06, to be used for the school fund.

D. D. BURDITT,
MARTIN C. FITZPATRICK,
JOHN B. CANDON.

LIBRARY REPORT

The Maclure library was open for the public circulation of books on 203 afternoons and 103 evenings during the past year; a total of 306 openings.

The total book circulation for the year was 16,452, of which 10,450 books were for adult readers and 6,002, or 36.4 per cent were from the children's room. The current magazine circulation was 2,883; making a total of 19,335 books and magazines borrowed during the year. This was a gain of 2,762 over the year 1926 and the largest circulation the library has ever had, by 2,445.

The average daily circulation was 95.2. The largest circulation was on Feb. 26, when 238 books and magazines were loaned.

The number of volumes added to the library during the year was 207, of which 24 were bound magazines and 17 were gifts. Bills for the books purchased amounted to \$331.87 and for the magazine and newspaper subscriptions \$87.80.

Received at the loan desk \$73.11 for fines and subscriptions and \$78.68 for the rental of books at two cents a day. The treasurer of the Maclure Library Association received from the town's appropriation of 3 per cent on the grand list of last year \$486.09.

Orders drawn on the treasurer of the Association, for all approved bills of the year, amounted to \$2,356.45.

This library dates its beginning in the formation of the Pittsford Librarian Society, April 12, 1796, only 28 years after the first settlement here. April 30, 1927, was the 130th anniversary of the first drawing of library books in the town, when the shareholders met and drew their books by ballot.

The free catalogue of books added to the library in 1927 will soon be received from the printer.

MARY RANDALL ALLEN,

Librarian.

MARTIN C. FITZPATRICK,
JOHN B. CANDON.

LIBRARY REPORT

The Maclure library was open for the public circulation of books on 203 afternoons and 100 evenings, during the year 1928. This was a total of 303 openings.

The total book circulation for the year was 15,710, of which 10,449 books were for adult readers and 5,261 were from the children's room. The per cent of the children's reading was 34.1 per cent. The current magazine circulation was 2,728, making a total of 18,438 books and magazines borrowed from the library during the year.

The average daily circulation was 90.8. The largest circulation was on Mar. 3, when 255 books and magazines were loaned.

The number of volumes added to the library during 1928 was 327, of which 19 were bound magazines and 59 were gifts. Bills for the books purchased amounted to \$400.86 and for the magazines and newspapers subscribed to for the reading room and children's tables \$86 was paid. The rebinding bills of the year were \$108.80.

Received at the loan desk \$93.83 for fines and for subscriptions paid by non residents of Pittsford.

\$81.46 was received from the rental of books of fiction at two cents a day. The treasurer of the Maclure Library Association received from the town's appropriation of 3 per cent on the grand list \$475.71.

Orders drawn on the treasurer of the Association, for all approved bills of the year, amounted to \$2,564.65.

A printed list of books added to the library last year is ready for distribution.

MARY RANDALL ALLEN,
Librarian.

Through co-operation with the State Department of Public Welfare, Mother's Aid was secured for Mrs. B.

Skodowski. An allowance of \$3.00 a week, which began in June, has meant a saving of \$84.00 for the Town.

Respectfully submitted,

MARY J. CONNOLLY,
Overseer of Poor.

The following are some explanatory notes comparing the items above with those of the preceding year.

1. Town Tax and Intangible Tax Returns: These combined items show a decrease of \$1,184.26. Although the same tax rate was voted (195%) this decrease is due to the lowering the grand list to the extent of \$629.63. This caused a decided decrease in the anticipated income from these tax items. It is difficult to anticipate the rate needed in 1932-33, due to the adoption of the State Income Tax.

2. Rebate from State Treasurer: This account shows an increase of \$285.58. This increase is due to the receiving from the State the sum of \$416.08, which is due Pittsford under House Bill No. 231, which rebates a sum due from the two preceding years. Thus a decrease in State Rebate is anticipated.

3. Tuition: This account shows an increase of \$98.50, due to an increase in tuition pupils. This item is dependent upon the number of tuition pupils in 1932-33.

SUMMARY OF SCHOOL EXPENDITURES

February 1, 1932

Teachers' salaries and supervision	\$25,737 66
School directors' salaries	105 00
Repairs	538 47
Furniture	142 57
Water, fuel and lights	1,729 45
Janitor service	2,154 18
Transportation and board	2,969 50
Tuition	150 00
Supplies	1,937 86
Text books	481 98
Census	33 66
Truancy	30 60
Insurance	649 25
Medical inspection	78 00
Telephone	75 05
Freight and cartage	29 43
Miscellaneous	93 33
Total	\$36,941 99
Balance	\$750 82

The following are some explanatory notes comparing the items above with those of the preceding year.

1. Teachers' Salaries: This item shows an increase of \$1,097.97. This increase is due to the fact that the fiscal year included forty school weeks compared with the usual thirty-eight weeks. This meant an additional payment to the teachers during this fiscal year. Taking this into consideration, teachers' salaries remained about constant.

2. Repairs: This item shows a decrease of \$1,032 82. During the year the only repairs made were those which were absolutely necessary for the maintenance of school. Believing it to be in the interests of sound economy to maintain our school buildings at a high level of repair, some increase is anticipated in this item for 1932-33.

3. Janitor Service: This item shows an increase of \$112.43. This increase is due to the fiscal year including forty weeks of school, thus necessitating additional payment. A decrease is anticipated.

4. Transportation: This item shows an increase of \$228.85. This is due to the increased number of pupils being transported. This increase is due in a large measure to transporting the pupils of Grade Six at the Goodnough School to the Lothrop Building. This was adopted as a relief measure from the crowded conditions at the Goodnough school. Due to the constant increase in the number of transportation pupils, an anticipated increase in this item may be justified.

5. Tuition: This item shows a decrease of \$177.58. This is due to fewer pupils attending Grades in Proctor. No increase in this item is anticipated.

6. Supplies: This item shows a decrease of \$201.95. This is due to economy in use of supplies, and the possible purchase at a lower price. This item will remain constant, dependent upon price conditions.

7. Books: Item shows an increase of \$163.04, due to purchase of additional reading materials. This item will remain constant.

8. Insurance: This account shows an increase of \$228.26. which is due to a greater number of premiums becoming payable during the fiscal year. This will vary in constant proportions.

9. Medical Inspection: This item shows a decrease of \$632.73. This inspection was limited to the pupils in Grade One. This item will remain constant for 1932-33.

10. Water, Fuel and Lights: This item shows a decrease of \$743.36. This is due to measures of economy in use of these materials, and to lower prices prevailing during the fiscal year. This item will remain constant dependent upon the prevailing prices during 1932-33.

------------------	------------

Mothers' Aid for Mrs. B. Shodowsky received from the Department of Public Welfare has meant a saving of \$12.00 a month to the town.

Mrs. John Piroch has just been granted this same aid, which means \$16.00 a month deduction from her monthly allowance.

Expense for tramps this year was \$120 against \$48 for last year.

\$35.75 was donated by the Pittsford Branch of the Red Cross (County) Chapter for the hospital care of a sick child whose family was unable to pay.

The Housekeepers' Club, High School and private individuals generously gave clothing, which was distributed to needy families.
